### K Easy Install Services

Some elements of this service may be remote and some onsite, as stated below. Travel to onsite locations beyond 50 miles of the city centre of Lenovo's nearest delivery hub will incur a charge as stated in a quotation.

Please note that under the collective term of Windows PCs, we include Desktop PCs, Laptops / Notebooks and Workstations that run Microsoft Windows versions 7, 8, 10, 11, or above.

#### K.1. Unboxing and Setup of PC

The Customer will receive their hardware by post or in accordance with their delivery preferences.

Customer will be provided with communication details for phone or support contact to Lenovo with their Hardware.

Customer must contact Lenovo's support team who will a) provide remote installation; b) schedule an appointment for remote installation; c) schedule an appointment for onsite installation dependent on the services purchased.

**Unboxing** involves assembling the PC's parts that arrived from Lenovo and basic integration of them into your workspace setup (such as plugging in power, network connections (if applicable), peripherals (keyboard, mouse, screen, printer) and removing them afterwards from the work space.

**Setup** involves configuration of the MS Windows operating system, BIOS updates and configuration, hardware firmware updates, device driver updates, joining the corporate IT domain, printer-scanner setup and/or connection to selected shared printing scanning facilities as well as the windows desktop setup (screensavers and display settings). We will install any standard Windows image on your computer system (may not be applicable to small and medium businesses).

**PC to PC Migration** includes unboxing and setup, and using network access or a cable to migrate user applications, settings and user profiles from old PC to new PC. Although this process is automated, Customer will get the opportunity to help decide which applications need to be moved (if not all).

## **K.2. Installation or Migration of Applications**

For new PC's, Lenovo will carry out onsite manual application installation. For old PC's this migration will take place remotely where possible. This process is offered as part of installation procedure and is not available as a separate service as standalone or for subsequent credit if it is not required by customer at installation. We will install your applications (using installation media [if applicable] and license key codes provided by you).

## **K.3. Migration of Windows "user data" to new PC**

Lenovo requires user guidance regarding which data is migrated. Customer agrees that Lenovo has authority to action user instructions about data content and folder location within the PC. It is Customer responsibility to ensure that sufficient space remains on the new PC for migration of such data.

## **K.4. Local Business Hours**

This Service provides for Lenovo to carry out installation and setup services remotely for Lenovo Supported Products. As our service is dependent upon the input of your users (for example, your users will need to login into their current desktops, in order for their data to be migrated), our on-site and remote technicians operate during normal business hours. This remote service is not available on bank holidays or weekends. Customer acknowledges and gives consent to the access to their Lenovo Product for this purpose.

### **K.4.1 Remote and Manual Installation**

In cases where the remote team members need to work directly on your PC(s) they will do so via remote control, and will only do so with your permission.

For onsite migration services, a Lenovo technician will remain onsite for a maximum of 80 minutes per PC migration as stated below.

### **K.4.2 Timings**

This service is a **fixed price service** using the following timing **allocations for human expertise** to operate within:

- A) The On-Site Timeslot:** PC Migrations or Installations will have up to 80 minutes of technician time, on-site, per unit. This provides ample time to setup the OS environment and either install applications, or execute the automated migration of applications, and ensure that the automated data migration is progressing. It also allows time for troubleshooting,
- B) The Automated Data Migration Timeslot:** This period of time is dependent upon the amount of data that needs to be migrated and the amount of bandwidth that is available for the migration. For this reason, we cannot predict how long this would take, and leave this task to our migration automation tool to complete unattended.
- C) The Post Installation / Migration QA Timeslot:** A remote team will be in contact to verify successful completion and will have 20 and additional minutes for post installation / migration checks, troubleshooting and quality assurance.

## **K.5. General Terms for Easy Install Services**

- f) Where there is a need for us to connect outdated, old (7 years or more), or non- plug-and-play peripheral devices that are not natively supported by Windows, we will apply a best efforts approach to get them connected within the allocated time frame for the service, and we will prioritize their inclusion to be last in our priority list. ## **M. CO2 Offset Services**

**CO2 Offset** means - a verified reduction in emissions of carbon dioxide or its equivalent in the other greenhouse gases (GHG Protocol), made in order to compensate for emissions made elsewhere. Offsets are measured in metric tonnes of carbon dioxide equivalent (CO2e). Offset is performed via support and/or enablement of different projects offsetting CO2, such as usage of alternative energy sources.

1. Basis of CO2 Offset calculation. Lenovo calculates the relevant product carbon footprint emissions for offset based on estimated greenhouse gas output for the entire product life cycle including Manufacturing, transport, product use and end of life disposal. Where Lenovo is aware of a numerical range based on a number of factors for the Offset calculation, of which we are aware, Lenovo will 'round up' and choose the most impactful calculation to ensure it is offsetting as generously as possible for the applicable product.
2. Changes to the Methodology. Lenovo reserves the right to change the CO2 Offset methodology where appropriate for example:
  - a. Where required by law
  - b. Where predominant scientific methodology around carbon offset accounting or other environmental factors is credibly questioned, or advances, and our practice reasonably requires updating to reflect it.

  - d. Lenovo's offsetting provider and/or the projects they support, changes
4. Compatible Devices. The CO2 Offset service will only be available in connection with compatible devices. Such devices are subject to change.
5. Best endeavors. Lenovo shall use its best endeavors to ensure its CO2 Offset Program and all carbon reduction projects supported by it are quality assured. The projects Lenovo supports currently comply with the Clean Development Mechanism. Lenovo reserves the right to change to an equivalent standard at its discretion. CO2 Offset supporting projects will be registered with a reputable CO2 Offset registry.
6. Proof of Offset. Lenovo will provide documentary evidence to Customer of the CO2 Offset service and the authentication of the program if requested. The Form of such certification or documentary evidence is at Lenovo's discretion. Any certification regime may change to be independent or in-house but will be comparable to reputable standards in the market.
7. No Warranty. Lenovo does not warrant that any certification or CO2 Offset program established by it may be used for legal or tax purposes. Where Lenovo offers a choice of participatory carbon reduction programs it will use best endeavors but the same is not warranted. Lenovo provides not warranties as to the effectiveness or output of any carbon reduction projects supported by this service.

This limit also applies to any of Lenovo's subcontractors or resellers. It is the maximum for which Lenovo, its resellers and subcontractors are collectively responsible. The following amounts are not subject to a cap on the amount of damages: a) damages for bodily injury (including death); b) damage to real property; and c) damage to tangible personal property for which Lenovo is solely and legally liable.

Except as expressly required by law without the possibility of contractual waiver, under no circumstances shall Lenovo, its resellers or its subcontractors, be liable for any of the following even if informed of their possibility:
